

Resume Website Build Project

COM 343

Dr. Alison Witte

ASSIGNMENT

In this project, you create a multi-page website using WordPress that will be hosted on HACVita.com. Your website should be professional in nature and showcase your skills, talents, and experiences.

FORMAT

The website should be built in WordPress. The site must contain the following:

- A title that includes your name
- A functional navigation system
- At least 4 pages including an “About” page and a “Sample Work” page. (You may change the titles of these pages, but it must be obvious from the design and content what that these pages are included.)
- At least 2 images
- At least 2 links to outside content

Your goal is to create a site that potential employers can look at to assess both your resume and your web management/site building skills, so you also need to think about organization of the content on the page and about aesthetics. The page should reflect your personality and tastes, but also be easy to see, read, and understand.

IMPORTANT DATES

- Wednesday 4/2 (Noon) Completed Website Link due (Moodle)

ASSESSMENT

The rubric below will be used to this project when it is submitted for grading.

	Organization & Purpose	Presentation & Functionality	Requirements
An A Project (112.5-125 points)	<ul style="list-style-type: none"> Clearly conveys who you are and what your skills and experiences are Has a logical and intuitive organization that makes locating information quick and easy Selects appropriate elements to display various types of content 	<ul style="list-style-type: none"> Consistently uses aesthetically pleasing design choices Consistently uses design choices to facilitate user experience All components of the site function correctly Is relatively free of minor grammar and spelling errors and contains no major errors 	<ul style="list-style-type: none"> Includes the required components
A B Project (100-112 points)	<ul style="list-style-type: none"> Mostly clearly conveys who you are and what your skills and experiences are, with a few minor omissions or unnecessary inclusions Has a mostly logical and intuitive organization that makes locating information quick and easy with a few minor lapses Mostly selects appropriate elements to display various types of content, with a few questionable choices 	<ul style="list-style-type: none"> Mostly consistently uses aesthetically pleasing design choices Mostly consistently uses design choices to facilitate user experience Most components of the site function correctly, with only one or two minor issues Contains a few minor grammar and spelling errors and contains no major errors 	<ul style="list-style-type: none"> Includes the required components
A C Project (87.5-99.5 points)	<ul style="list-style-type: none"> Generally clearly conveys who you are and what your skills and experiences are, with some minor omissions or unnecessary inclusions Has a generally logical and intuitive organization that makes locating information quick and easy with some lapses Generally selects appropriate elements to display various types of content, with some questionable choices 	<ul style="list-style-type: none"> Generally consistently uses aesthetically pleasing design choices Generally consistently uses design choices to facilitate user experience A majority of components of the site function correctly, with some noticeable issues Has some minor grammar and spelling errors and a few major errors 	<ul style="list-style-type: none"> Includes the required components
A D Project (75-87 points)	<ul style="list-style-type: none"> Somewhat clearly conveys who you are and what your skills and experiences are, with many omissions or unnecessary inclusions Has a somewhat logical and intuitive organization that makes locating information possible, but time consuming or challenging Somewhat selects appropriate elements to display various types of content, with many questionable choices 	<ul style="list-style-type: none"> Somewhat consistently uses aesthetically pleasing design choices Somewhat consistently uses design choices to facilitate user experience Some of components of the site function correctly, with some noticeable issues Has some minor and several major grammar and spelling errors 	<ul style="list-style-type: none"> Includes most of the required components, but one is missing

	Organization & Purpose	Presentation & Functionality	Requirements
An F Project (Less than 75 points)	<ul style="list-style-type: none"> Minimally or never clearly conveys who you are and what your skills and experiences are, with numerous omissions or unnecessary inclusions Has a minimally logical and intuitive organization that makes locating information difficult and time consuming Minimally or never selects appropriate elements to display various types of content, with numerous questionable choices 	<ul style="list-style-type: none"> Minimally or never uses aesthetically pleasing design choices Minimally or never uses design choices to facilitate user experience A few of components of the site function correctly, with numerous noticeable issues Has many minor and several major grammar and spelling errors 	<ul style="list-style-type: none"> Includes some of the required components, but more than one is missing
